

Canadian Academy of Engineering (CAE) appoints new Executive Director

Ottawa - May 22, 2019

Dr. Robert Crawhall is a Canadian engineer with experience in many areas of Canadian technology leadership. He has over ten years' experience running not-for-profit technology organizations with national and regional mandates; fifteen years in the private sector; and five years as a consultant to government and academia on improving innovation ecosystems. His current areas of technical focus include advanced manufacturing & materials, artificial intelligence and cybersecurity. A Senior Member of the IEEE, Robert works students in Grades 5 through 12 in computer programming and robotics. He sits on the Board of Directors of four not-for-profit and one for-profit organizations and as a consultant to colleges and universities in Ontario and Québec to help align programs with industry needs. He has participated in standards development for over 25 years and is currently involved in four standards development activities. Dr. Crawhall has been a P.Eng (Mechanical) in Ontario for 37 years, holds a PhD in Electrical Engineering (EMI/EMC), and is a certified project manager (PMP). He works regularly at an executive level in both English and French.
